

## Messaging To Email Service.

From just **\$6.40 per month** Delacon can set your company up with a Voice to Email system that will make sure you never miss a message.

This cost effective service will:

- Email voice messages as sound files directly to your email account so you can check them easily anywhere: at work, at home or from overseas
- Record caller ID's and store them in database which you can view at anytime. Even if the caller hangs up before leaving a message you will still know who called.
- You can also access your messages using a predefined mobile telephone number any time
